

Ethernet Controller, 100 Mbps, IEEE 802.3, IEEE 802.3u, 1.14 V, 3.6 V, QFN, 32 Pins

Manufacturers	Microchip Technology, Inc
Package/Case	QFN-32
Product Type	Interface ICs
RoHS	Rohs
Lifecycle

General Description

Microchip's LAN8740A/LAN8740Ai are the latest generation of low-power, 10/100 Fast Ethernet PHYs featuring Energy Efficient Ethernet (IEEE 802.3az) and Wake-On-LAN functionality, which provide system sleep modes for improved power savings. The LAN8740A/LAN8740Ai feature deterministic loop back delay, assuring real-time system performance as well as cable diagnostics which reduce network installation costs. These devices are available in both commercial (0° to 70°C) and industrial (-40° to 85°C) temperature ranges. The LAN8740A/LAN8740Ai are well-suited for Consumer, Embedded and Industrial applications. Additionally, these devices support auto-negotiation, auto-polarity correction, HP Auto-MDIX† and are compliant with IEEE 802.3 and 802.3u standards. Microchip also offers its complimentary and confidential LANCheck® online design review services free of charge to customers who select our products for their application design-in.*

†HP Auto-MDIX eliminates the need for special "crossover" cables when connecting LAN devices together.

*The LANCheck online design review service is subject to Microchip's Program Terms and Conditions and requires a myMicrochip account.

Features

Highlights

Single-Chip Ethernet PHY

Comprehensive flexPWR® technology

Flexible power management architecture

LVC MOS variable I/O voltage range +1.6V to +3.6V

Integrated 1.2V regulator with disable feature

Energy Efficient Ethernet (IEEE 802.3az)

Cable diagnostics

Deterministic latency

Uses a low-cost 25MHz crystal for RMI mode to drive 50MHz output

Wake-On-LAN

HP Auto-MDIX support

Supports commercial (0° to 70°C) and industrial (-40° to 85°C) temperature ranges

32-pin, 5x5mm SQFN, RoHS-compliant packages

Target Applications

Set-top Boxes

DVRs/PVRs

Digital TVs/iPTVs

Printers

IP and Video Phones

Industrial Networks

Embedded/Telecom

Test/Masurement Instrumentation

Wireless Access Points

Power over Ethernet (PoE)
