General Description

E28F400B5T60 is a flash memory chip manufactured by Intel Corporation. Here are some of its features:

Features

It has a capacity of 4 megabytes (MB).

It uses a 5-volt power supply.

It operates at a speed of 60 nanoseconds (ns).

It has a 32-bit data bus.

Application

It can be used as a non-volatile storage device in various electronic systems such as computers, digital cameras, and set-top boxes.

It can be used in automotive applications, such as engine control units (ECUs) and infotainment systems.

It can be used in telecommunications equipment, such as routers and switches.
