Please submit RFQ for FDMB2308PZ or [Email to us: sales@ovaga.com](mailto:sales@ovaga.com) We will contact you in 12 hours.

[RFQ](#)

## General Description

This device is designed specifically as a single package solution for Li-Ion battery pack protection circuit and other ultra-portable applications. It features two common drain P-channel MOSFETs, which enables bidirectional current flow, on Fairchild's advanced PowerTrench® process with state of the art MircoFET Leadframe, the FDMB2308PZ minimizes both PCB space and rS1S2(on).

## Application

ONSEMI
