General Description

LXT973QE is a Fast Ethernet transceiver chip manufactured by Intel Corporation.

Features

It supports both 10Mbps and 100Mbps Ethernet communication standards.

It has an integrated physical layer interface for connection to an Ethernet cable.

It supports half-duplex and full-duplex modes of operation.

It has an integrated auto-negotiation function for automatically detecting the communication speed and mode of operation of the connected device.

It supports several diagnostic functions for detecting cable faults and link quality.

Application

DP83848I from Texas Instruments

KSZ8041NL from Microchip Technology

W3150A+ from WIZnet
