

F22V10C FAMILY, 500 GATE SPLD, 5V(EPLD),SPLD - Simple Programmable Logic Devices 500 Gate SPLD 5V 24pin

Manufacturers	Microchip Technology, Inc
Package/Case	PDIP-24
Product Type	Programmable Logic ICs
RoHS	Rohs
Lifecycle

[RFQ](#)

General Description

A high-performance electrically erasable CMOS programmable logic device (PLD) with proven Microchip electrically erasable flash memory. The device supports speeds down to 5ns and power dissipation as low as 10A (typical). All speed ranges are specified over the full $5V \pm 10\%$ range for military and industrial applications and $5V \pm 5$ percent for commercial applications. Each of several low-power options can significantly reduce total system power and enhance system reliability.
