General Description

MAX691ACSE is a specific integrated circuit (IC) manufactured by Maxim Integrated Products, Inc. It is a low-power, CMOS microprocessor supervisory circuit that monitors the power supply voltage and the watchdog timer of a microprocessor system.

Features

- Monitors microprocessor power supply voltage
- Watchdog timer
- Precision voltage monitor
- Low power consumption
- Adjustable reset threshold
- Power-on reset signal

Application

- Industrial control systems
- Automotive systems
- Telecommunications equipment
- Computer peripherals
- Medical equipment
- Consumer electronics
