General Description

XC1736EPC is a part number that refers to a specific type of EEPROM (Electrically Erasable Programmable Read-Only Memory) manufactured by Xilinx. Here are some of its features:

Features

It has a storage capacity of 2K bits, which means it can store up to 256 bytes of data.

It uses a 5-volt power supply.

It has a high-speed access time of 150 nanoseconds.

It has an endurance of at least 100,000 write cycles.

Application

Industrial automation and control systems

Medical equipment

Telecommunications equipment

Automotive electronics

Consumer electronics
