## General Description

HD64F2132FA20 is a microcontroller from Renesas Electronics Corporation, a Japanese semiconductor company. Here are some of its features:

### Features

- It is a 16-bit microcontroller.
- It has a maximum operating frequency of 20 MHz.
- It has 128 KB of flash memory and 8 KB of RAM.
- It has 74 general-purpose I/O pins.
- It has a built-in 10-bit A/D converter with 20 channels.
- It has multiple communication interfaces, including UART, I2C, and SPI.

### Application

- HD64F2132F20V: Similar features, except for the operating temperature range.
- HD64F2132TF20: Similar features, except for the package type.
- HD64F2132FA18: Similar features, except for the memory capacity.
- HD64F2132FA16: Similar features, except for the memory capacity and package type.
