General Description

MAX132CNG is a low-power, RS-485/RS-422 transceiver chip produced by Maxim Integrated. It is used to transmit and receive data over long distances in noisy environments.

Features

- It supports data rates of up to 250 kbps
- It has a low power consumption of only 2.5 mA
- It operates with a single 5V power supply
- It has a fail-safe receiver input
- It has a wide common-mode range of -7V to +12V

Application

- Industrial automation
- Building automation
- Process control
- Instrumentation
- Communication systems
